BLUETOOTH METERS

NEW

EXPERIMENTAL

Your meter, logged for you.

Gluroo reads fingersticks from your Bluetooth meter and logs them for your GluCrew.

Fingerstick

7:42 AM

112 mg/dL

from Accu-Chek Guide

METERS THAT PROBABLY WORK

Accu-Chek Guide

Contour Next One

OneTouch Verio Flex

and more

Experimental: tell us which meter you have and whether it worked, at help@gluroo.com. Gluroo is not affiliated with Roche, Ascensia or LifeScan.

SWIPE

Roo spots patterns.

An occasional insight from your past glucose data, right in your GluCrew's log.

**Roo Insight**

9:24 AM

Hypoglycemia detected between 12am and 4am on 3 consecutive nights in the last 14 days.

Not medical advice. Tap to learn more.

At most one a day, in the morning

Shared with your GluCrew

Turn off in Settings > Notifications

Example insight. Roo Insights are not medical advice: review them with your care team.

SWIPE

APPLE WATCH

IMPROVED

Your watch, even offline.

Readings go from your G7 to your iPhone to your Apple Watch, with no internet on either device.

Dexcom G7

iPhone

Direct Dexcom G7

Apple Watch

No internet needed

Needs Direct Dexcom G7 on your iPhone. New watch chart too: time in range, a 2-hour view, and your meals and doses. Gluroo is not affiliated with Apple or Dexcom.

SWIPE
